DAILY GAZETTE.

Correspondence of the Daily Cazette, From the Fifth Regiment.

CAMP GRIFTIN, Dec. 10, 1861. DEAR GAZETTE: -Our camp looks like the bustling, noisy city of Janesville in the palmy days of 1856, when houses rose as it were by magic. We are excused from drill for three or four days now to fix up our tents and get ready for the rainy weather, which we expect soon. The boys have been in squads to the woods and felled trees, hewn them into planks and slabs for the walls and floors of their tents and then brought them on their shoulders to the camp. As there has been no set rule to govern us in our buildings, but each one has had the privilege to build just as large or as small, just as high or as low, just as neat or as slovenly as his desires or circumstances permitted, there is a great variety of style in our tents-(1 call them tents because we have our tents on top of the log walls). Some are neat as any house, while others are coarse and rough. The trees we have used in our building expedition must have been valued very highly by the old rebels who lived here last summer. Some of them were old shade trees of more than one hundred years growth, and we think they will be missed by the farmers here when the hot days come next season This raising of our tents gives us much more room, enables us to build bunks, and sleep off of the ground; keep warmer in the cold wet days, and prevents the sudden changes of temperature which we have suffered much from when we had only the thin canvas walls between us and the whole of out-doors. Every tent has now a stove or a ground fire place, and there is a very marked improvement in the general health of the men. Every one feels well, and all are getting in "good order," as the saying is. Most of the men who were unwell a few weeks since were made so by the se vere fatigue duties which we had to perform. We would go out on the advance, travel nearly all day, then chop till night,

lie in the line of battle all night, and the next day dig in the trenches or chop, then go on picket. In this way we worked from the time we left Kalorama until we got here, and I wonder we were hot more unwell than we were, as often we would be wet in the rain for more than a day at a time. We performed these hard labors cheerfully and will do so again if called upon, but if government wants to discourage its soldiers, let it keep on dealing leniently with those damnable rebels. Let auch men as John C. Fremont be trodden on the dust, and rebels turned loose by saying they would not fight for the rebel gov-

mistaken. On the 6th inst. Generals Smith and Mc Call went out on a foraging expedition and captured a large amount of corn, wheat, hay and outs, besides a number of cattle, horses, hogs, and a few men and women. Although we went out and drove in the rebel pickets, we were not molested by them. We thought at one time that we would get up a skirmish with them, but owing to some misunderstanding about the placing of the men the affair did not come off. We were very sorry about it, as we

ernment, and the army will not stand it.

If our commanders think the men in the

army are men who never think, they are

worked hard and got no pay for it. The whole country we went over looked like the "last rose of summer" stepped on. The men were gone, and the women and children ragged and dirty. I believe it is the most God-forsaken place I was ever in. As we were passing the house of an old lady she came to the door and surveyed us for a moment, then rolling up her eyes, in great agony she said-" I wish you knew where you were going." I suppose the old lady thought we would be killed and eaten by her valiant sons in the army. As we were thrown out as flankers we were very much fatigued and worn out when we arrived in camp that night.

The weather is very warm here now, and while you sit shivering over your stove, I sit perfectly comfortable out of doors in my shirt sleeves. We are enjoying this fine weather as we expect rains soon and then we will not feel so joyful. Tell the 13th we wish they were here, we would show them around Dixie and give them an introduction to our friends here.

THE ALEXANDRIA JAIL - Senator Wilson, of Massachusetts, paid a visit to the Alexandria jail on the 8th, and found the same state of affairs existing there with re-Sutherland's addition, east of the Depots and Rail- | Alexandrin jail on the 8th, and found the gard to the imprisonment of negroes as in the Washington jail. The jail was full of slaves who belong to rebel masters, including several belonging to the late John A. Washington. Congress will doubtless take action in this case similar to that of the Washington jail.

brothers in the Alexandria jail. AN EXTRAORDINARY FEAT .- The follow-

ing telegraphic dispatch, dated San Francisco, Wednesday, December 4, records the most wonderful feat in the annals of telegraphing. It says: "The President's message in full was re-

eight o'clock this morning." President's message as early as did those of Baltimore and Philadelphia. Is not that a marvel, even for this age?

Our No.3 machines are especially adapted to all kinds of light and heavy LEATHER WORK.

In Carriage Trimming, Boot and Shoe Making, Har-ness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the Ing-stated dashes. There is scarcely any part of a Trim-mers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 incheslong, and the shuftle witt hold six times the usual quantity of thread. The large muchines work as last as small ones. We would ask for our Letter A machines, the special

attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing pur-poses. They embody the principles of the standard machines, making like them, the interiock stirch, and are destined to be as celebrated for Family Sewing and Halit manufacturing purposes as our standard machines are for mounts turing purposes in general.

Correspondence of the Daily Gazette. From the Fifth Regiment.

CAMP GRIFFIN, Dec. 10, 1861. DEAR GAZETTE: - Our camp looks like the hustling, noisy city of Janesville in the palmy days of 1856, when houses rose as it were by magic. We are excused from drill for three or four days now to fix up our tents and get ready for the rainy weather, which we expect soon. The boys have been in squads to the woods and felled trees, hewn them into planks and slabs for the walls and floors of their tents and then brought them on their shoulders to the camp. As there has been no set rule to govern us in our buildings, but each one has had the privilege to build just as large or as small, just as high or as low, just as neat or as slovenly as his desires or circumstances permitted, there is a great variety of style in our tents-(I call them tents because we have our tents on top of the log walls). Some are neat as any house, while others are coarse and rough. The trees we have used in our building expedition must have been valued very highly by the old rebels who lived here last summer Some of them were old shade trees of more than one hundred years growth, and we think they will be missed by the farmers here when the hot days come next season. This raising of our tents gives us much more room, enables us to build bunks, and sleep off of the ground; keep warmer in the cold wet days, and prevents the sudden changes of temperature which we have suffered much from when we had only the thin canvas walls between us and the whole of out-doors. Every tent has now a stove or a ground fire place, and there is a very marked improvement in the general health of the men. Every one feels well, and all are getting in "good order," as the saying is. Most of the men who were unwell a few weeks since were made so by the severe fatigue duties which we had to perform. We would go out on the advance, ravel nearly all day, then chop till night, lie in the line of battle all night, and the next day dig in the trenches or chop, then go on picket. In this way we worked from the time we left Kalorama until we got here, and I wonder we were hot more unwell than we were, as often we would be wet in the rain for more than a day at a time. We performed these hard labors cheerfully and will do so again if called upon, but if government wants to discourage its soldiers, let it keep on dealing leniently with those dampable rebels. Let such men as John C. Fremont be trodden sn the dust, and rebels turned loose by saying they would not fight for the rebel government, and the army will not stand it. If our commanders think the men in the army are men who never think, they are

mistaken. On the 6th inst. Generals Smith and Mc Call went out on a foraging expedition and captured a large amount of corn, wheat, hay and outs, besides a number of cattle, horses, hogs, and a few men and women. Although we went out and drove in the rebel pickets, we were not molested by them. We thought at one time that we would get up a skirmish with them, but owing to some misunderstanding about the placing of the men the affair did not come off. We were very sorry about it, as we worked hard and got no pay for it.

The whole country we went over looked like the "last rose of summer" stepped on. The men were gone, and the women and children ragged and dirty. I believe it is the most God-forsaken place I was ever in. As we were passing the house of an old lady she came to the door and surveyed us for a moment, then rolling up her eyes, in great agony she said-" I wish you knew where you were going." I suppose the old lady thought we would be killed and eaten by her valiant sons in the army. As we ROYAL BANK OF IRELAND! were thrown out as flankers we were very much fatigued and worn out when we are

rived in camp that night. The weather is very warm here now, and while you sit shivering over your stove, I sit perfectly comfortable out of doors in my shirt sleeves. We are enjoying this fine weather as we expect rains soon and then we will not feel so joyful. Tell the 13th we wish they were here, we would show them around Dixie and give them an introduction to our friends here.

SINGER & CO.'S STANDARD MACHINES,

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at \$90,

Reduced to \$70.

No. 2, Standard Shuttle Machine, formerly sold at \$100.

Reduced to \$75. Singer's Letter A Machine,

Is the best Machine in the word for Family Sewing and Light Munufacturing purposes; Price, (with Michael and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and

application for manufacturing purposes.
Our No. 3 machines are especially adapted to all kinds of light and heavy LEATHER WORK,

in Carriage Trimming. Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and sittle the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines to 24 inches long, and the shuttle will held six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as calcibrated for Family Sowing and Hybr manufacturing purposes as our standard machines are for manufacturing purposes in general.

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the best machine throat needles.

Our customers may rest assured that all our Branch Offices are furnished with the GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bens notes.

Signorespondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

The News.

The news to-day possesses points of decided interest. A battle was fought near Cheat Mountain, in Western Virginia, and the rebels compelled to retreat out of that part of the state, to Staunton. A great fire has occurred at Charleston, supposed to be the work of the negroes. The Mexicans are about issuing letters of marque and reprisal for privateers against the English French and Spaniards. The rebels are getting uneasy at Centreville, and there are rumors of an advance against our lines.

Retrenchment and Reform.

The report of the Secretary of State should be read with care and attention. If is suggestive of high taxes, and the necessity of retrenchment and retorm. The direct tax imposed by gress for war purposes will also be collected within the next six months, which will amount to seven or eight hundred thousand dollars. We do not allude to this subject for the purpose of exciting alarm, but to warn our legislature and our people that the pruning knife of retrenchment must be used with unsparing rigor for years to come. The state expenditures should be reduced; and our county, township and city expenditures are especial ly high. Our local taxes are greater than those of any nation on earth, and if we lop off all that is useles; and extravagant, and employ capable and faithful agents to do our official business, we will not feel the war tax. The task of reform should be performed by our legislators without fear or favor. This, and a thorough investigation into our expenditures for the war, is about the only thing that our legislature need to do. We trust that members will be preparing themselves for this duty, by reflection and study, before the meeting of the legislature, so that they may address themsel, a immediately to the work before them when they assemble, and thus secure a abort session.

While the members of the state government are turning their attention to this subject, the people of the towns and cities should consult together, and see if our local taxes cannot be reduced. Some legislation for this purpose may be needed. If so, let it be prepared early, so that the legislature may not be pressed with local business late in the session. We repeat it—reform is needed and must be had, if we would carry United States—horselve resource. it be prepared early, so that the legislature the war through to a successful termination.

Another Complaint, -The Green Bay Advocate complains of the injustice done Brown, Oconto, and Door counties by the statement of enlistment in the Madison Journal to which we took exception. In the statement Brown county is reported as furnishing 44 enlistments, Oconto 109 and Doer 1, while the Advocate declares that Brown has furniseld, at the lowest estimate. not less than 150, Oconto over 200, and what Door has furnished it is unable to say.

Will the Journal treat this complaint as an exhibition of "petty jealousy" of Dane county and Madison, as it did when we objected to such a disparagement of other localities than the one so highly favored

by the deceptive statement.

The La Crosse Republican says: Unrain.-The statistics set affeat by the

WHY THERE IS NOT AN ADVANCE INTO SOUTH CAROLINA .- The question will nature ally occur to you, when will General Sherman make an advance? I can only answer hystating the circumstances which surround us. We are ignorant of the number of rebels which may be but a few miles inland, and of the actual position of the country. Our troops are in good condition and spir- peets of the banking interest of the state, its, but are not very proficient in drill.— However, if orders should be received for foregoing calculation of the bank tax will an immediate advance upon the Charleston and Savannah railroad, Thave no doubt our officers would cheerfully respond.

WAR EXPENSES AND LIABILITIES. fitting out the several regiments furnished by Wisconsin to the defense of the government, have been managed by the proper military officers, acting by appointment and under direction of the governor; and all accounts therefor have been audited, allowed and paid by and through such officers. For detailed statements of transactions in the war fund, and full information of the liabilities of the state or account of such fund, the legislature is referred to the reports which will be submitted to them by the govornor, and by the adjutant general, quartermaster general, paymaster general, and | shall file with the provost marshal general commis-ary general of the state.

No estimate is therefore attempted of the iabilities existing against the state for expenses acising out of the war. Whatever nay be the amount of uch liabilities, it is to be hoped that the government, in aid of whose protection and defense they were in the assessment shall be increased 10 per curred, will promptly reimburse the state AID OF VOLUNTEERS.

By chapter 8 of the general laws passed it the late estra ression of the legislature, it was provided that --

"The non-commissioned officers, musicians and privates mustered into the service of the United States or of this state, in pursuance of any law of this state, shall rereive from the time of being so mustered, in addition to the pay provided for like non commissioned officers, musician, and privates in the army of the United States, the sum of five dollars per month to all volunteers having families dependent upon them for their support,

All claims for aid, as provided by this act, are, by further provisions of the same act, presented to the secretary of state, to be by him examined and audited, and warrants drawn upon the treasury in payment, as for other audited accounts. The duties devolved upon this office in consequence of the passage of this act, have proved exceedingly laborious --- while with all the watchfulness and care it has been found practicable to exercise, it is feared the state has of been entirely protected against abuse of its munificence.

In passing upon claims for aid under the provisions of this law, I have from time to time adopted constructions of its meaning and intent, as follows:

1st. Only volunteers in the infantry service are included by the terms of the act .--Those enlisting in cavalry or artillery companies, not being mustered into service "inpursuance of any law of this state," cannot receive the extra pry without further legisation.

2d. The term "volunteers having families dependent upon them for then support," is held to include married men, and such others as have indigent and aged or invalid parents, or orphan and dependent brothers and sisters actually relying upon them for support. But the dependence must be actual, as upon the head of a family.

3d. But one individual can be entitled to the extra pay by reason of the dependence of the same lamily.

4th. Volunteers enlisting in companies or regiments of other states are not entitled to the extra pay provided exclusively for soldiers mustered into service "under the provisions of the law of this state."

5th. Valunteers from other states enlisting in the Wiscousin regiments, are not entitled to extra pay for dependent families

residing in other states. By the first of January next, it is anticifull regiments of infantry mustered into the service of the United States, "ander the provisions of the laws of this state." Liquity and justice demand that provisions made by law for the aid of volunteers in the infantry service, when infantry were the only troops called for by the government, should be extended to all volunteers subsequent calls of the government for cavalry and artillerymen. This demand will, without doubt, he cordially accoded to by the legislature. Three regiments of avail ry and one of artillery are now being orunized in the state. These in the field, the whole number of volunteers from Wisconsinger ving as non-commissioned officers, magicians and privates, will not be less than 23,000. It is safe to estimate that not less than 6,000 of the e will be entitled to reason of having families dependent upon them for their support. This will require

\$30,000 per month, or \$360,000 per an-It is left to the wisdom of the legislature to devise the means for continuing the aid virtually pledged by the state to her volunteers who leave dependent families behind them, during their continuance in the service of the country. The legislature must also provide the means for defraying other expenses constantly accoung for services not required by the rules and regulations governing the military service of the general government, but which have grown up with and become interwoven with all our military operations in this state, or take the responsibility to discontinue such services

Sr. Louis, Dec. 12. The following general order was issued HEADQUARTERS. Department of Missouri. The suffering families driven by the reb

els from Southwestern Missouri, which have already arrived here, have been supplied by voluntury contributions made by Union men. Others are on their way, to arrive in a few days. These must be supplied by charity from men known to be bostile to the Union. A list will be prepared of the names of all persons of this class who do not voluntarily furnish their quots, and contributions will be levied on them of ten thousand dollars, in clothing provisions and quarters, or in money in lieu thereof. This levy will be made upon the following classes of persons, in proportion to their guilt and the property of each person. First, those in arms with the enemy, who have property in this city; second, those who have furnished pecuniary or other aid to the enemy, or to persons in the enemy's service; third, those Brig. Major General Fremont has arrived in the city, and remains quiet, but few being admitted to his presence. An animated debate took place in the

house of representatives to-day, on the emancipation bill. Mr. Conway, of Kansas, made a radical abolition speech, during which he characterized the battle of I mont as a rebel victory. Mr. Fauke, of Il linois, retorted in vehement language, at the close of Conway's speech, and said that his statement in regard to the battle of Belmont was false, and an act of wanton injustice to the Union soldiers who fought there. Mr. Conway desired to know if the language used by Mr. Fouke was applied to him. Mr. Richardson, of Illinois, interfering, said the place to settle personal diffioulties was outside the house. This observation created a marked sensation. Mr. Fonke meantime retiring from the house. The friends of the parties are endeavoring

to prevent a duel. The evidence elicited by the court-martial now trying Col. Kerrigan, is very severs, convicting him of most of the charges

preferred against him. Secretary Welles has withheld his approval from the court-martial's verdict acquitting Commander Chas. II. Poor, tried for letting the Sumter escape from Nev Orleans. The News.

The news to-day possesses points of decided interest. A battle was fought near Cheat Mountain, in Western Virginia, and the rebels compelled to retreat out of that part of the state, to Staunton. A great fire has occurred at Charleston, supposed to be prisal for privateers against the English
French and Spaniards. The rebels are getting uneasy at Centreville, and there are ruproved for adapted against our lines. mors of an advance against our lines.

Retrenchment and Reform.

The report of the Secretary of State should be read with care and attention. It is suggestive of high taxes, and the necessity of retrenchment and reform. The direct tax imposed by a agress for war purposes will also be collected within the next six months, which will amount to seven or eight hundred thousand dollars. We do not allude to this subject for the purpose of exciting alarm, but to warn our legislature and our people that the pruning knife of retreuchment must be used with unsparing rigor for years to come. The state expenditures should be reduced; and our county, township and city expenditures are especially high. Our local taxes are greater than those of any nation on earth, and if we lon off all that is useless and extravagant, and employ capable and faithful agents to do our official business, we will not feel the war tax. The task of reform should be performed by our legislators without fear or favor. This, and a thorough investigation into our expenditures for the war, is about the only thing that our legislature need to do. We trust that members will be preparing themselves for this duty, by reflection and study, before the meeting of the legislature, so that they may address themselves immediately to the work before them when they assemble, and thus secure While the members of the state govern-

ment are turning their attention to this subject, the people of the towns and cities should consult together, and see if our local taxes cannot be reduced. Some legislation for this purpose may be needed. If so, let it be prepared early, so that the legislature State Tax provided by acts of 1857 and 1858 to pay interest on bonds. should consult together, and see if our local may not be pressed with local business late in the session. We repeat it-reform is needed and must be had, if we would carry the war through to a successful termination.

ANOTHER COMPLAINT,-The Green Bay Advocate complains of the injustice done Brown, Oconto, and Door counties by the statement of collistment in the Madison Journal to which we took exception. In the statement Brown county is reported as furnishing 44 enlistments, Oconto 109 and Door I, while the Advocate declares that Brown has furniseld, at the lowest estimate, not less than 150, Oconto over 200, and what Door has furnished it is unable to say.

Will the Journal treat this complaint as an exhibition of "petty jealousy" of Dane county and Madison, as it did when we objected to such a disparagement of other localities than the one so highly favored by the deceptive statement.

The La Crosse Republican says:

CONTRADICTED.-The Washington Star contradicts the statement made that Gen. McClellau said he would resign unless Mr. Cameron's report was altered.

WHY THERE IS NOT AN ADVANCE INTO South Carolina.-The question will nature ally occur to you, when will General Sher-man make an advance? I can only answer by stating the circumstances which surround us. We are ignorant of the number of rebels which may be but a few miles inland, and of the actual position of the country. Our troops are in good condition and spirits, but are not very proficient in drill.— However, if orders should be received for an immediate advance upon the Charleston and Savannah railroad, I have no doubt our

officers would cheerfully respond. Between us and the mainland is an almost interminable labyrinth of creek, and be reduced to any considerable amount,river, and islands, and an advance in force would be attended with difficulties—which I do not say, however, are insurmountable. The probable reason why we do not advance towards the interior, is because Port Royal is decided for the present to be a base of operations for another naval fleet destined still further southward. The taking of Tybee Island, and the great preparations being made here, sufficiently prove this. Wher ever the next expedition lands, the blow will be struck immediately inland, as a large number of horses are to be taken out for cavalry.—Hillon Head Cor. N. Y. World.

THE REBUL BATTERIES ON THE POTOMAC. I have high official authority for saying that the rebel batteries on the Potomac are soon to be wiped from the banks of the ed by said act, now yields (and has for sevriver. WAR EXPENSES AND LIABILITIES. The expense for enlisting, organizing and fitting out the several regiments furnished by Wisconsin to the defense of the government, have been managed by the proper military officers, acting by appointment and under direction of the governor; and all ac-counts therefor have been audited, allowed and paid by and through such officers. For detailed statements of transactions in the war fund, and full information of the liabilities of the state on account of each fund. the legislature is referred to the reports which will be submitted to them by the governor, and by the adjutant general, quartermaster general, paymaster general, and

AID OF VOLUNTEERS. By chapter 8 of the general laws passed at the late extra session of the legislature, was provided that-

"The non-commissioned officers, musicians and privates mustered into the ser-vice of the United States or of this state, in pursuance of any law of this state, shall recoive from the time of being so mustered, in addition to the pay provided for like non-commissioned officers, musicians and privates in the army of the United States, the sum of five dollars per month to all volunteers having families dependent upon

All claims for aid, as provided by this act, are, by further provisions of the same act, presented to the secretary of state, to be by him examined and audited, and warrants drawn upon the treasury in payment, as for other audited accounts. The duties devolved upon this office in consequence of the passage of this act, have proved exceedingly laborious -- while with all the watchfulness and care it has been found practi-cable to exercise, it is feared the state has not been entirely protected against abuse of its munificence.

In passing upon claims for aid under the provisions of this law, I have from time to ime adopted constructions of its meaning and intent, as follows:

1st. Only volunteers in the infantry service are included by the terms of the act .-Those enlisting in cavalry or artillery com-panies, not being mustered into service "in pursuance of any law of this state," connot receive the extra pay without further legis-

lation.
2d. The term "volunteers having families dependent upon them for their support," is held to include married men, and such others as have indigent and aged or invalid parents, or orphan and dependent brothers and sisters actually relying upon them for support. But the dependence must be ac-

tual, as upon the head of a family. 3d. But one individual can be entitled to the extra pay by reason of the denendence of the same family.

4th. Volunteers enlisting in companies or regiments of other states are not enti-tled to the extra pay provided exclusively for soldiers mustered into service "under the provisions of the law of this state "

5th. Volunteers from other states enlisting in the Wiscousin regiments, are not entitled to extra pay for dependent families residing in other states.

By the first of January next, it is anticipated that Wiscousin will have eighteen full regiments of infantry mustered into the service of the United States, " under the provisions of the laws of this state." Equity and justice demand that provisions made by law for the aid of volunteers in the infantry service, when infantry were the only troops called for by the govern-ment, should be extended to all volunteers from this state who have responded to the subsequent calls of the government for cav-alry and artiflerymen. This demand will, without doubt, he cordially acceded to by the legislature. Three regiments of cavalry and one of artillery are now being orranized in the state. These in the field. the whole number of volunteers from Wisconsin, serving as non-commissioned officers, musicians and privates, will not be less than 22,000. It is safe to estimate that not less than 6,000 of these will be entitled to the five dollars per mouth extra pay, by reason of having families dependent upon them for their support. This will require \$39,000 per month, or \$360,000 per an-

It is left to the wisdom of the legislature to devise the means for continuing the aid virtually pledged by the state to her voluneers who leave dependent families behind them, during their continuance in the service of the country. The legislature must also provide the means for defraying other expunses constantly accruing for services not required by the rules and regulations governing the military service of the general government, but which have grown up with and become interwoven with all our military operations in this state, or take the esponsibility to discontinue such services

ltogether. CONDUCT OF SHERMAN .-- An extract from letter, dated Hilton Head, Dec. 1, says icr. Sherman will not allow a pound of cotion to go, unless there is a while owner buy it from. Cotton is used freely for 15,000 soldiers' beds, and is wasted and houses are full of the finest sea island cotton, and the negroes burn it up nightly, by orders of their masters. Capt. Saxton, the chief quartermaster of the expedition, wants to take the cotton and load every return ship with it, but Gen. Sherman will not give his consent. Certain parties about here have bired the negroes to pick and gin the cotton, paying them five cents a pound for their labor. Gen. Snerman is in ill-Lealth, being badly afflicted with the dispepsia.

There are already 164 pieces of cannon at Cairo, none of which are less than 32 pounders, and over 100 tons of ammunition have arrived, and more is still to arrive.

Last Night's Report.

Sr. Louis, Dec. 12, The following general order was issued this morning:

HEADQUARTERS, Department of Missouri,
St. Louis, December 12, 1861.

The suffering families driven by the reb-

ls from Southwestern Missouri, which have already arrived here, have been supplied by voluntury contributions made by Union men. Others are on their way, to arrive in a few days. These must be supplied by charity from men known to be hostile to the Union. A list will be prepared of the names of all persons of this class who do not voluntarily furnish their quota, and contributions will be levied on them of ten thousand dollars, in clothing provisions and quarters, or in money in lieu thereof. This levy will be made upon the following classes of persons, in proportion to their guilt and the property of each person. First, those in arms with the enemy, who have property in this city; second, those who have furnished pecuniary or other aid to the enemy, or to persons in the enemy's service; third, those who have verbally, in writing or in publication, given encouragement to the insurgents. Brig. Gen. Curtis, B. G. Farrar, (provost marshal general,) and Chas. Borg, an as-sessor of St. Louis county, will constitute the board of assessors for levying the aforementioned contributions. As soon as any part of this contribution is assessed, the provost marshal general will notify the parties assessed, their agents, or representtives, stating the amount of provisions, clothing or quarters, and the money value thereof, required of each, and, if not furnished with in the time specified in such notice, he will issue an execution, and sufficient property

will be taken and sold at public auction satisfy the assessment, with cost, and a nenalty of 25 per cent. addition. If any per son upon whom assessments shall be made shall file with the provost marshal general that he is a loyal citizen, who has been true to his allegiance to the United States, he will be allowed one week to furnish evidence to the board, to vindicate his character and if, at the end of that time, he shall not be able to satisfy the hoard of his loyalty, the assessment shall be increased 10 per the assessment shall be increased 10 per cent, and levy immediately made. Sup-plies so collected will be expended for the object designated, under the direction of he provost marshal general with the advice of the state sanitary committee. Where money is had instead of supplies, it will be expended for them as required, and any money not so expended will be turned over to the sanitary commission for the benefit of sick soldiers. Any one who shall resist or attempt to resist, the execution of these aws, will be immediately arrested and imprisoned, and will be tried by military com missioners. Major Gen. HALLEUK.

JNO. C. KELTON, Ass't Adj. Gen. WASHINGTON, Dec. 12. Private advices from New Mexico say he report is, that the strong forces which vere sent against the Texans in the Mesila Valley, have driven the enemy far back into Texas.

Major General Fremont has arrived in he city, and remains quiet, but few being

admitted to his presence.

An animated debate took place in the louse of representatives to day, on the emancipation bill. Mr. Conway, of Kansas, made a radical abolition speech, during which he characterized the battle mont as a rebel victory. Mr. Fonke, of Il-linois, retorted in vehemont language, at the close of Conway's speech, and said that his statement in regard to the battle of Belmont was false, and an act of wanton in-justice to the Union soldiers who fought here. Mr. Conway desired to know if the language used by Mr. Fouke was applied to him. Mr. Richardson, of Illinois, interfering, said the place to settle personal diffioulties was outside the house. This observation created a marked sensation, Mr. Fouke meantime retiring from the house.

Wm, H. Johnston, of the Lincoln Cavalry, whose trial was noticed last night, has been sentenced to be shot, and will be executed to-morrow at an hour to be fixed by Gen. Franklin, the division commander.-His crime is flagrant according to his own confession. He entered the army in order to desert, that he might thus reach New Orleans, where his mother resides. In carrying out his plans, he got beyond our lines, but mistaking our pickets for the enemy's, he ran towards them throwing up his hands and crying that he was a deserter. They assured him that they belonged to the othe side, took his arms, and said that he must prove his good faith by giving information Thereupon he told them that they could capture part of our men behind him, where they really were, and gave abundant details touching our strength and position. He was taken prisoner and court martialed as

A letter from Colonel Lee, of the Massachusetts 20th regiment, dated Richmond Jail, Nov. 20th, describes the cell in which other hostages and himself are confined as small and very damp—the cold air drawing through the windows. Most of the hostage have to provide their own beds-the government allowing them only two cotton cover eds to each bed. They are forbidden to receive visitors, and all communications with other prisoners denied them. Col. Lee and Major Reave are well.

AUGUSTA, Ga., Dec. 10. The Charleston Courier of this morning, save that the Lincoln fleet seized a schoon er on Saturday, and that a steamer was passing on Monday, with a floating battery n tow.

The Charleston Mercury of to-day says the Yankee invadors are getting bolder. A small body of them were seen near Port Roayl on Sunday.

The Norfolk Day Book speaks of an im-

FORT MONROE, Dec. 13. The Charleston Courier of the 9th says that on Wednesday a detachment of the Beaufort artillery, 22 men, passed over to the Island and visited Beaufort.

There were no signs of the enemy either on land or water. Our men then proceeded to the work of distraction. The chief object was to destroy the crops of cotton and provisions on Paris Island, which being near the enemy, was crowded with negroes who had flocked there to escape from the control of their owners. Owing to want of boats this object was but partially effected.
700 bales of cotton and 700 bashels of corn

of five barns were emptied and consumed. Seventeen crops, amounting to nearly 4,000 bales, were thus effectively removed from the fangs of the destroyer.

The Courier says the English steamship of war, Racer, arrived off Charleston har-bor on Friday, and brought dispatches to the British consul. The Racer left next day for Port Royal. The Courier of the 9th says, on Friday last there were in sight near this harbor, the steamship Susquebanna, two side wheel gunboats, a sloop ship, a large schooner supposed to be laden with coal, and the Sweedish bark Menona

NEW YORK, Dec. 13. It is freely stated that there are a number of letters of marque in this city, issued by the Mexican government, to prey upon the commerce of England, France and Spain and that vessels are fitting out here, which they have a perfect right to do, under a similar decision of the British government to that effect, allowing the Nashville to fit out at Southampton. FORT MONROE, Dec. 13. A telegraph dispatch to the Norfolk Day Book, from Charleston, South Carolina, states that a fire broke out in that place, Wednesday night, which was supposed to have been the work of an incendiary. At the date of the last dispatch, at 5 o'clock Thursday afternoon, the fire was still burn-ing. The theatre on Broad street, the institute and other public buildings, are stated to have been destroyed. The fire swept across Broad street. Assistance was sent from Augusta. The amendment to the fugitive slave law, of which Senator Clark has given notice, is intended to deprive rebels of its benefits, by providing that the condition precedent to patch authorizes the erection of barracks an application under it be proof of loyalty. The passage of other laws may, however, render its information unnecessary.

ALLEGED SPY ARRESTED .- A citizen of Williamson county, Illinois, named B. F. Lowe, was recently arrested by a detachment of cavalry, and is now in confinement at Csiro, on charge of being a spy. He called the guard, but they not obeying, he drew his revolver and shot one of the ing mutineers, named Scottie, dead. Gen. Franklin investigated the matter, and finding it to be a clear case of self-defence, he took no notice of it. Three days since a round robin was sent to Gen. Franklin, threatening the life of Lieut. Holding it too near the flame, the oil ignited, and a terrible explosion followed, blowing the can into fragments, and setting fire to the poor woman's clothes, which burned with frightful rapidity. The husband, awakened by the noise, sprang to his fect, when an awful sight met his eyes. His wife was writhing in the agonies of death—her hair entirely burned from her head, and her clothing entirely gone, with the exception of a shred of her drawers. A portion of the room was also on fire, but was very soon extinguished.

For some reason, the adulteration of the oil, or an imperfect separation of the napthe from it, accidents as fatal as the explosion of camphene or burning fluid are aceasionally occurring. The danger arises from the supposed fact that it is incombustible and therefore perfectly safe. As much care, however, should be observed as in the use of any other article. THE above are First Class, justily popular, and prompt to paying companies. They invite investigation into their condition and solicit besiness entirely upon their real merits. In point of sedeeney and reliability and honorable dealing, they have but few equals, and no superiors. They are founded upon flie very best securities in the world—first class bouls and merrgages upon property in New York and Brooklyn—securities that leave not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become atmost, if not entirely, valueless. And while there are Companies entering the field of competition, well calculated to raislead by publishing partial and one-vilud statements of their condition, and without a cash surplus on hand sufficient to reliasure their outstanding risks, the above named companies always have and keep over and above their capital tooles the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for fiberal paironage. Folicier issued without delay, and farms risks for a series of years taken at less rates than can be done by M. and Companies, and a certainty given instead of an mazetainty. All losses promptly adjusted and paid.

FINE ART GALLERY! LAPPIN'S HALL JANESVILLE, WIS. Fresh Oysters

AT WHEELOCK'S. DAILY GAZETTE.

From the Fifth Regiment. CAMP GRIFFIN, Dec. 10, 1861. DEAR GAZETTE:-Our camp looks like the bustling, noisy city of Janesville in the palmy days of 1856, when houses rose as it were by magic. We are excused from drill for three or four days now to fix up our tents and get ready for the rainy weather, which we expect soon. The boys have been in squads to the woods and felled trees, hewn them into planks and slabs for the walls and floors of their tents and then brought them on their shoulders to the camp. As there has been no set rule to govern us in our buildings, but each one has had the privilege to build just as large or as small, just as high or as low, just as neat or as slovenly as his desires or circumstances permitted, there is a great variety of style in our tents-(I call them tents because we have our tents on top of the log walls). Some are neat as any house, while others are coarse and rough. The trees we have used in our building expedition must have been valued very highly by the old rebels who lived here last summer. Some of them were old shade trees of more than one hundred years growth, and we think they will be missed by the farmers here when the hot days come next season. This raising of our tents gives us much more room, enables us to build bunks, and sleep off of the ground; keep warmer in the cold wet days, and prevents the sudden changes of temperature which we have suffered much from when we had only the thin canvas walls between us and the whole of out-doors. Every tent has now a stove or a ground fire place, and there is a very marked improvement in the general health of the men. Every one feels well, and all are getting in " good order," as the saying is. Most of the men who were unwell a few weeks since were made so by the severe fatigue duties which we had to perform. We would go out on the advance, travel nearly all day, then chop till night, next day dig in the trenches or chop, then

army are men who never think, they are mistaken. On the 6th inst. Generals Smith and Mc Call went out on a foraging expedition and captured a large amount of corn, wheat, hay and oats, besides a number of cattle, horses, hogs, and a few men and women Although we went out and drove in the rebel pickets, we were not molested by them. We thought at one time that we would get up a skirmish with them, but owing to some misunderstanding about the placing of the men the affair did not come off. We were very sorry about it, as we worked hard and got no pay for it.

go on picket. In this way we worked from

the time we left Kalorama until we got

here, and I wonder we were hot more un-

well than we were, as often we would be wet in the rain for more than a day at a

time. We performed these hard labors

cheerfully and will do so again if called

upon, but if government wants to discour-

age its soldiers, let it keep on dealing leni-

ently with those damnable rebels. Let

such men as John C. Fremont be trodden

sn the dust, and rebels turned loose by say-

ing they would not fight for the rebel gov-

ernment, and the army will not stand it.

If our commanders think the men in the

The whole country we went over looked like the "last rose of summer" stepped on. The men were gone, and the women and children ragged and dirty. I believe it is the most God-forsaken place I was ever in. As we were passing the house of an old lady she came to the door and surveyed us for a moment, then rolling up her eyes, in great agony she said-" I wish you knew where you were going." I suppose the old lady thought we would be killed and eaten by her valiant sons in the army. As we were thrown out as flankers we were very much fatigued and worn out when we arrived in camp that night.

The weather is very warm here now, and while you sit shivering over your stove, I sit perfectly comfortable out of doors in my shirt sleeves. We are enjoying this fine weather as we expect rains soon and then we will not feel so joyful. Tell the 13th we wish they were here, we would show them around Dixie and give them an introduction to our friends here.

THE ALEXANDRIA JAIL. - Senator Wilson, of Massachusetts, paid a visit to the Alexandria jail on the 8th, and found the same state of affairs existing there with regard to the imprisonment of negroes as in the Washington jail. The jail was full of slaves who belong to rebel masters, including several belonging to the late John A. Washington. Congress will doubtless take action in this case similar to that of the Washington jail, There are three of the rebel Gen. Lee's

brothers in the Alexandria jail. AN EXTRAORDINARY FEAT.—The following telegraphic dispatch, dated San Francisco, Wednesday, December 4, records the most wonderful feat in the annals of telegraphing. It says:
"The President's message in full was re-

ceived here by telegraph, and published at eight o'clock this morning." So the people of San Francisco read the President's message as early as did those of Baltimore and Philadelphia. Is not that a marvel, even for this age?

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, tos, the saving of time and labor is very great. The stude under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock sinch, and are destined to be as celebrated for Family Sowing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

We have made the above Reduction in Prices with the two fild view of benefitting the public and ourselves. The public have been swindled by apurious mediums made in finite and of ours. The metal in them, from the fron casting to the smallest piece is of poor quality. Their makers have not the means to do their work well. They are hid away in accret places, where it would be impossible to, no e at their command the proper membranch appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at medium. these, and leaving extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Radly Made are all anys is the to get out of ord-r, and are sure to cost considerable trouble and money to keep them in repair. The qualities to be looked for in a machine are: certainly of correct action and arters of speed, simplicity of construction, great durability and rapadity of opendium, with the least lation. Machines to combine these essential qualities, must be made of the best metal and faithed to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at ropid as well as slow rates of speed, but least long in the finest possible working order. Our machines, as made by us, will earn more money with less labor than any others, whether liminitation of ours or not. In fact, they are cheaper than any other machine as a gift.

The News.

The news to-day possesses points of decided interest. A battle was fought near Cheat Mountain, in Western Virginia, and the rebels compelled to retreat out of that part of the state, to Staunton. A great fire has occurred at Charleston, supposed to be the work of the negroes. The Mexicans are about issuing letters of marque and reprisal for privateers against the English French and Spaniards. The rebels are getting aneasy at Centreville, and there are rumors of an advance against our lines.

Retrenchment and Reform.

The report of the Secretary of State should be read with care and attention. It is suggestive of high taxes, and the necessity of retrenchment and reform. The direct tax imposed by a agress for war purposes will also be collected within the next six months, which will amount to seven or eight hundred thousand dollars. We do not allude to this subject for the purpose of exciting alarm, but to warn our legislature and our people that the pruning knife of retrenchment must be used with unsparing rigor for years to come. The state expenditures should be reduced; and our county, township and city expenditures are especially high. Our local taxes are greater than those of any nation on earth, and if we lop off all that is useless and extravagant, and employ capable and faithful agents to do our official business, we will not feel the war tax. The task of reform should be performed by our legislators without fear or favor. This, and a thorough investigation into our expenditures for the war, is about the only thing that our legislature need to do. We trust that members will be preparing themselves for this duty, by reflection and study, before the meeting of the legislature, so that they may address themselves immediately to the work before them when they assemble, and thus secure a short session. While the members of the state govern-

ment are turning their attention to this subject, the people of the towns and cities should consult together, and see if our local taxes cannot be reduced. Some legislation for this purpose may be needed. If so, let it be prepared early, so that the legislature may not be pressed with local business late in the session. We repeat it-reform is needed and must be had, if we would carry the war through to a successful termination.

Another Complaint .- The Green Bay Advocate complains of the injustice done Brown, Oconto, and Door counties by the statement of culistment in the Madison Journal to which we took exception. In the statement Brown county is reported as furnishing 44 enlistments, Oconto 109 and Doer I, while the Advocate declares that Brown has furnisehd, at the lowest estimate. not less than 150, Oconto over 200, and what Door has furnished it is unable to say.

Will the Journal treat this complaint Dane county and Madison, as it did when we objected to such a disparagement of other localities than the one so highly favored by the deceptive statement.

The La Crosse Republican says:

UNFAIR.-The statistics set affoat by the Journal in reference to the Wisconsin volunters do gross injustice to La Crosse county, and other counties, as the statement is coufined to the first twelve regiments. Give us a full report and the little county of La Grosse will put the big counties in a tight

HEATHENISH OPPOSITION .- The intelligent cartmen of Montreal are making themselves absurd and getting into trouble by stoning the street railroad cars, which they seem to think will interfere with their business.

CONTRADICTED.-The Washington Star contradicts the statement made that Gen. McClellau said he would resign unless Mr. Cameron's report was altered.

WHY THERE IS NOT AN ADVANCE INTO SOUTH CAROLINA .- The question will naturally occur to you, when will General Sherman make an advance? I can only answer by stating the circumstances which surround us. We are ignorant of the number of rebels which may be but a few miles inland, and of the actual position of the country. Our troops are in good condition and spirits, but are not very proficient in drill.— However, if orders should be received for an immediate advance upon the Charleston and Savannah railroad. Thave no doubt our officers would cheerfully respond.

Between us and the mainland is an almost interminable labyrinth of creek, and river, and islands, and an advance in force would be attended with difficulties-which I do not say, however, are insurmountable. The probable reason why we do not advance towards the interior, is because Port Royal is decided for the present to be a base of operations for another naval fleet destined still further southward. The taking of Tybee Island, and the great preparations being made here, sufficiently prove this. Wherever the next expedition lands, the blow will be struck immediately inland, as a large number of horses are to be taken out for cavalry .- Hilton Head Cor. N. Y. World.

THE REBEI. BATTERIES ON THE POTOMAC. -I have high official authority for saying that the rebel batteries on the Potomac are boasted strength that they have been allowed so long to impede the navigation of the river, but if, at the first of January, we can say that the blockade has been completely removed, our rejoicings will enable us to forget the past. Gen. Sickles, whose brigade is on the Maryland side of the lower Potomac, has been in the city during the last two days, and has received important instructions from the government in refererence to the general movement upon the enemies batteries .-- Washington Cor. The estimates submitted for the ensuing year are calculated more closely and with less liberal allowances. From no source can there be reasonably an increase of revenue beyond what is estimated, except possibly from the tax on banks; and consider ing the recent history and immediate pros-

nects of the banking interest of the state.

there remains no reasonable hope that the

foregoing calculation of the bank tax will

be exceeded-which is the tax upon about

\$3,800,000 of banking capital. It is difficult, also, to see on what items the foregoing estimate for expenditures can be reduced to any considerable amount .--Indeed, it is believed that in all the ordinary expenses of the state government, and in he management of the public institutions of the state, that degree of economy has been introduced which renders any wide retrenchment, within the present scale of ex-

penditure, impracticable. Section 6, of chapter 13, of the acts passed at the late extra session, "An act to provide for borrowing money to repel invasion," etc., doubtless authorizes the levy of a further tax sufficient to pay the interest for the eusuing year on the whole issue of bonds for war purposes. But it will be noticed that the 2.5 mill tax directed by the acts of 1857 and 1858, originally designed to raise only a sum sufficient to pay the interest on bonds to the amount of \$100,000, authorizsoon to be wiped from the banks of the ed by said act, now yields (and has for sevriver. It is no credit, it is true, to our eral years past yielded) a sum sufficient to pay the annual interest on all the bonds now outstanding against the state. Deeming that this 25 mill tax has long enough served as a covert source of revenue to the general fund. I determined to make no provision beyond the income of that tax for the purpose of paying interest.

*The estimate for appropriations to the Chari able Institutions of the state are taken from the annual reports by the Trustees of the respective Institutions for the current year, and the sums named are in amount and for the objects asked for in such reports. The estimate for the current expenses of the State Prison rests upon the judgment of the present commissioner. † The deficiency of E. H. Jansen, former State Tress.

urer, is omitted from the estimate of the available re-sources of the state, the same as last year, and for the same obvious reason then given.

The legislature must therefore of necessity accept and take measures to provide for a certain deficiency of not less than \$22,573.21; to which should be added for unavailable resources at least to equal the present amount of arrearages due from counties, viz: \$33,880.28; making a total of \$56,453.49; which the probable receipts of the year will lack of meeting the anticipated calls upon the treasury for the same

The most obvious sources of relief are: 1st, a loan to equal the amount of bonds maturing in 1862; or, 2d, placing to account of the general fund the proceeds of the I-10 mill tax, now amounting to \$53,-366.70, which has been levied from year to year for the object of providing township libraries-a project which has not hitherto found sufficient favor with the legislature to induce the appropriation of money therefor. Hence a large and yearly increasing fund has remained in the treasury unemployed, except as the action of the last legislature permitted its temporary use for war pur-

In estimating the expenses of the next legislature, calculation is made for a session of only sixty days. In the present condition of the finances of the state, and with the great burdens of unavoidable taxation weighing upon the people, it is confidently hoped that the patriotism of our representatives can be relied upon to bring about this coming winter that long desired and much nceded reform, a a short, economical session of the legislature.

WAR EXPENSES AND LIABILITIES. The expense for enlisting, organizing and fitting out the several regiments furnished by Wisconsin to the defense of the government, have been managed by the proper military officers, acting by appointment and under direction of the governor; and all accounts therefor have been audited, allowed and paid by and through such officers. For detailed statements of transactious in the war fund, and full information of the liabilities of the state on account of such fund. the legislature is referred to the reports which will be submitted to them by the governor, and by the adjutant general, quartermaster general, paymaster general, and commissary general of the state.

No estimate is therefore attempted of the liabilities existing against the state for expenses arising out of the war. Whatever may be the amount of such limbilities, it is o be hoped that the government, in aid of whose protection and defense they were incurred, will promptly reimburse the state AID OF VOLUNTEERS.

By chapter 8 of the general laws passed at the late extra session of the legislature, t was provided that—

"The non-commissioned officers, musicians and privates mustered into the ser-vice of the United States or of this state, in oursuance of any law of this state, shall recoive from the time of being so mustered, in addition to the pay provided for like non-commissioned officers, musicians and privates in the army of the United States, he sum of five dollars per month to all volunteers having families dependent upon them for their support."

All claims for aid, as provided by this act, are, by further provisions of the same act, presented to the secretary of state, to be by him examined and audited, and warrants drawn upon the treasury in payment, as for other audited accounts. The duties devolved upon this office in consequence of the passage of this act, have proved exceedngly laborious-while with all the watch fulness and care it has been found practicable to exercise, it is feared the state has not been entirely protected against abuse of its munificence.

In passing upon claims for aid under the provisions of this law, I have from time to ime adopted constructions of its meaning and intent, as follows:

lst. Only volunteers in the infantry service are included by the terms of the zet.— Those enlisting in cavalry or artillery companies, not being mustered into service "in pursuance of any law of this state," cannot receive the extra pay without further legis-

2d. The term "volunteers having families dependent upon them for their support," is held to include married men, and such others as have indigent and aged or invalid and sisters actually relying upon them for support. But the dependence must be actual, as upon the head of a family.

the extra pay by reason of the dependence

of the same family.
4th. Volunteers enlisting in companies or regiments of other states are not entitled to the extra pay provided exclusively for soldiers mustered into service "under the provisions of the law of this state."

5th. Volunteers from other states culisting in the Wisconsin regiments, are not entitled to extra pay for dependent families residing in other states.

By the first of January next, it is antici pated that Wisconsin will have eightlen full regiments of infantry mustered into the service of the United States, "under the provisions of the laws of this state." Equity and justice demand that provisions made by law for the aid of volunteers in the infantry service, when infantry were the only troops called for by the government, should be extended to all volunteers from this state who have responded to the subsequent calls of the government for cavalry and artillerymen. This demand will, without doubt, he cordially acceded to by the legislature. Three regiments of cavalry and one of artillery are now being organized in the state. These in the field, the whole number of volunteers from Wisconsinuserving as non-commissioned officers, musicians and privates, will not be less than 23,000. It is safe to estimate that not less than 6.000 of these will be entitled to the five dollars per mouth extra pay, by reason of baving families dependent upon them for their support. This will require \$30,000 per month, or \$360,000 per an-

It is left to the wisdom of the legislature to devise the means for continuing the aid virtually pledged by the state to her volunteers who leave dependent families behind them, during their continuance in the service of the country. The legislature must also provide the means for defraying other expenses constantly accruing for services not required by the rules and regulations governing the military service of the general government, but which have grown up with and become interwoven with all our military operations in this state, or take the responsibility to discontinue such services

altogether. CONDUCT OF SHERMAN .-- Au extract from a letter, dated Hilton Head, Dec. 1, says ier. Sherman will not allow a pound of otton to go, unless there is a white owner to huy it from. Cotton is used freely for 15,000 soldiers beds, and is wasted and cattered about in every direction. Cotton houses are full of the finest sea island cotton, and the negroes burn it up nightly, by orders of their masters. Capt. Saxton, the chief quartermaster of the expedition, wants to take the cotton and load every return ship with it, but Gen. Sherman will not give his consent. Certain parties about here have hired the negroes to pick and gin the cotton, paying them five cents a pound for their labor. Gen. Snerman is in ill-health, being badly afflicted with the dispepsia.

There are already 164 pieces of cannon at Cairo, none of which are less than 32 pounders, and over 100 tons of ammunition have arrived, and more is still to arrive.

An animated debate took place in the house of representatives to-day, on the emancipation bill. Mr. Conway, of Kansas, made a radical abolition speech, during which he characterized the battle of Belmont as a rebel victory. Mr. Fonke, of Il-linois, retorted in vehement language, at the close of Conway's speech, and said that his statement in regard to the battle of Belmont was false, and an act of wanton injustice to the Union soldiers who fought there. Mr. Conway desired to know if the language used by Mr. Fouke was applied to him. Mr. Richardsov, of Illinois, interfering, said the place to settle personal diffioulties was outside the house. This observation created a marked sensation. Mr. Fanke meantime retiring from the house.

To CURE CHILBLAINS .- Rub the affected parts well every night with muriatic acid, GALLANT MULLIGAN! HERO OF LEXINGTON! diluted with an equal quantity of water .-Two or three applications will generally cure the worst case. We can youch for the value of this remedy.

To Our Debtors.

It will be seen by a notice in another column, that on the first of January next there will be a change in the proprietorship of the Gazette. The NECESSITY of a settlement of ALL our accounts will be apparent to all who will give the subject their attention and as our own convenience will be materially promoted by a settlement before the dissolution of the partnership, and the interest of no debtor will be injured by doing in season what must come at last. we hope there will be no request or attempt at delay. Mr. Wilcox will devote his time to this matter, and as there are a large one be prepared when called on. No one will be turned out of the office if he calls here for that purpose.

CONCERT BY THE NATIONALS .- Our readers will find with this evening's paper a programme of the concert for Monday evening next. The selection is well made and from what we hear of this troupe they are competent to do it justice. In addition the ladies have secured the services of the regimental band, of the 13th, for the evening. Mr. Peter Schmidt will also sing some of his unique and inimitable pieces. The whole to couclade with the Star Spangled Banner in full chorus. We promise a rich entertainment and hope to see a crowded house. This being under the auspices change will be made in the proprie- of the "Laidies' Aid Society," the net protorship of the Gazette Office by the ceeds are to go to the benefit of our brave withdrawal of Mr. Bowen. This volunteers, and as the 13th is to leave us shortly, we expect to see Lappin's Hall crowded to its ntmost capacity. Let us give the boys a rouser.

THE CONGREVE ROCKET,-An improved style of the Congreve rocket is about to be introduced in the army of the Potomac. This weapon is one of the most fearful that can be devised for setting fire to ships or villages, or for use against compact bodies of cavalry or infantry. They fly with a loud whizzing sound, scattering a shower of fire along their path, and, instead of pro-jecting in a straight line like a cannon ball, they turn sharp corners and shoot off in dif ferent directions like "zig-zag lightning." No one can tell but that a rocket speeding past him at furlong's distance, may turn a dozen angles and kill him the next instant.

FOOLS NOT ALL DEAD VET .- The Detroit Free Press says an old gentleman in Bedford, in this county, who certainly has not gained wisdom by age, is laboring under the serious impression that the end of this world is looked for in December. He has neglected to attend to his temporal affairs, has his ascension robe all ready, and hangs it on his bed post every night, so that in case the trumpet of Gabriel should arouse him in the middle of the night, he might MUFFS TO MATCH, have the garment at a moment's warning, and appear as presentable as possible on the occasion.

Resignation .- Cyrus Woodman, of Iowa ounty, has resigned his seat in the assembly, and an election to fill the vacancy is ordered by the governor to take place Jannary 2, 1862. We regret this resignation. Mr. Woodman is a man of superior intelli-gence, and would have been a very useful member of the assembly. We want more good his place .- Madison Argus.

THE ALLOTMENT SYSTEM .- Senator Wilson will introduce a bill on Monday to organize the allotment system. By one section the paymaster general is authorized and required to detail an assistant paymaster to reside in each loyal state, for the purof coal oil:

The above is the oldest company doing business in this state, and with peculiar propriety has been denominated "The Oid Hartford". At an indexnity to the insured, it refers to a solid million of assets well invested; and if anything were needed to commend it to the public for liberal patronage, we might offer its history of success in business, and bonorable dealing with its patrons, for over half a century, as amply sufficient for the purpose.

THE above are First Clazs, justly popular, and prompt paying companies. They invite investigation into their condition and solicit buviness entirely upon their read merits. In point of solvency and reliability and homorable dealing, they have but few equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and mortgages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the functuations of the market, and liable, in times of pastic, as the experience of the past teaches, to become the finctuations of the market, and liable, in times of passic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Comranies entering the field of competition, well calculated to mislead by publishing partial and one-stied statements of their condition, and without a cash surplus on hand sufficient to reliasure their outstanding risks, the above named companies always have and keep over and above their carital twice the amount, and in most instances four times, needed for the reinsurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence anost instances jour times, needed for the remarance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and forms risks for a series of years taken at less rates than can be done by M. taal Companies, and a cortainty given instead of an amountainty. All losses promptly adjusted and paid.

This want of an addicatic and thorough lifetory of the Rebeltion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compolled to grope through the mazes of the runner, reports, dispatches, fetters and editorials of the daily newspapers, to precipitate, he mits confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of principant value as well as of present interest, the publisher has arranged for the issue of the history as above set forthesing form and at a price which shall render it acceptable to all.

By the use of these pills the periodic attacks of Ner rous or Sick Headache may be prevented; and if taken at the commencement of an attack immediate relief rom pain and sickness will be obtained.

They soldom fail in removing Nausea and Headache to which females are so subject. They act gently upon the howels,-removing Cos-

ersons of sedentary habits, they are valuable as a Laxtive, improving the appetite, giving tone and vigor to the digestive organs, and restoring the natural elasticity and strength of the whole system.

The CRPHALIC PILLS are the result of long investigation and carefully conducted experiments, having been in use many years, during which time they have prevented and relieved a vast amount of pain and suffering from headache, whether originating in the newous system or from a deranged state of the stomach. They are entirely vegetable in their composition, and may be taken at all times with perfect safety without making any change of diet, and the absence of any disigreeable taste renders it easy to administer them to chil-
